Forward-Looking Statements

COSTAMARE INC.

This presentation contains certain “forward-looking statements” (as such term is defined in Section 21E of the Securities Exchange Act of 1934, as amended). All statements, other than statements of historical facts, that address activities, events or developments that the Company expects, projects, believes or anticipates will or may occur in the future, including, without limitation, future operating or financial results and future revenues and expenses, future, pending or recent acquisitions, general market conditions and shipping industry trends, the financial condition and liquidity of the Company, cash available for dividend payments, future capital expenditures and dry-docking costs and newbuild vessels and expected delivery dates, are forward-looking statements. Although the Company believes that its expectations stated in this presentation are based on reasonable assumptions, actual results may differ from those projected in the forward-looking statements. Important factors that, in our view, could cause actual results to differ materially from the future results discussed in the forward-looking statements include, without limitation, global supply and demand for containerships, the financial stability of the Company’s counterparties and charterers, global economic weakness, disruptions in the world financial markets, the loss of one or more customers, a decrease in the level of Chinese exports, the availability of debt financing, our ability to expand through newbuildings and secondhand acquisitions, risks associated with the operation of the Framework Agreement with our joint venture partner, delay in the delivery of newbuildings, rising crew and fuel costs, increases in capital expenditure requirements or operating costs, a decrease in containership values, increased competition in the industry, re-chartering risk, fluctuations in interest rates, actions taken by governmental and regulatory authorities, potential liability for future litigation and environmental liabilities, the availability of adequate insurance coverage, potential disruption of shipping routes due to accidents or political conditions and the other factors discussed in the Company’s most recent Annual Report on Form 20-F (File No. 001-34934) under the caption “Risk Factors”. All forward-looking statements reflect management’s current views with respect to certain future events, and the Company expressly disclaims any obligation to update or revise any of these forward-looking statements, whether because of future events, new information, a change in the Company’s views or expectations, or otherwise.

COMPANY INFORMATION

Costamare Snapshot

- One of the largest independent owners of containerships / Fleet of 76 vessels (incl. 5 newbuilds).
- 46 years of experience in shipping and a dedicated containership owner since 1992.
- Strong track record of uninterrupted profitability.
- Contracted cash flows of $2.2Bn[(1)] from first class charterers with a remaining time charter duration of 3.5 years[(2)].
- Upside potential in a firming charter market with 18 vessels (above 5,000 TEUs) due for rechartering[(3)] in the next 12 months.
- Prudent balance sheet management adapted to the cyclicality of the shipping sector. Never restructured any debt obligations or requested covenant waivers / debt deferral payments.
- Proven access to commercial bank debt at competitive terms.
- Dividend Yield of 5%[(4)].
- Strong sponsor support (ca. 58% ownership by founding family).
  - Participation in the Dividend Reinvestment Plan (“DRIP”) since its inception (July 2016), with $82m reinvested in Costamare to date.

Notes

1. As of January 28, 2020.
2. TEU-weighted average remaining charter duration / Assumes earliest re-delivery dates after giving effect to the exercise of any of Costamare’s extension options.
3. Assuming earliest re-delivery dates.
4. As of January 31, 2020 based on a share price of $7.93mail and quarterly dividend of $0.10 per common share.

Strategy

COSTAMARE INC.

- Focus on contracted cash flows of over $2Bn from strong counterparties in order to meet:
  - Operational expenses
  - Debt service requirements
  - Dividend payments
  - Excess liquidity requirements for re-investments
- Staggered charter maturities to capture market upside potential.
- Prudent debt amortization at a pace faster than depreciation.
- Priority to downside protection in all new transactions.
- Strong and uninterrupted sponsor support.

Important Notes on Idle Fleet

1. Since Q1 2019, idle fleet data is "distorted" because vessels undergoing scrubber installations are shown as idle.
2. For instance, out of the 1.4m inactive TEUs (6 January 2020), ca. 1m TEUs are linked to vessels undergoing scrubber installations.
3. Adjusted for note 2, effective idle fleet (6 January 2020) was 1.5%.

Note: Adjusted Net Income available to common stockholders and Adjusted Earnings per Share represent Net Income after earnings allocated to preferred stock, but before non-cash "Accrued charter revenue" recorded under charters with escalating charter rates, realized loss on Euro/USD forward contracts, vessels' impairment loss, loss on sale / disposal of vessels, swaps' breakage costs, (Gain) / loss on sale / disposal of vessel by a jointly owned company with York included in equity gain on investments, loss on asset held for sale by a jointly owned company with York included in equity gain on investments, non-cash general and administrative expenses and non-cash other items, amortization of prepaid lease rentals, net, amortization of Time charter assumed and non-cash changes in fair value of derivatives. "Accrued charter revenue" is attributed to the timing difference between the revenue recognition and the cash collection. EBITDA represents net income before interest and finance costs, interest income, depreciation and amortization. Adjusted EBITDA represents net income before interest and finance costs, interest income, depreciation, amortization, book loss on sale of vessels, impairment loss, general and administrative non-cash expenses, loss on an asset held for sale, write-off of deferred financing fees and other non-cash items.
However, Adjusted Net Income available to common stockholders, Adjusted Earnings per Share EBITDA and Adjusted EBITDA are not recognized measurements under U.S. GAAP. We believe that the presentation of Adjusted Net Income available to common stockholders, Adjusted Earnings per Shares, EBITDA and Adjusted EBITDA are useful to investors because they are frequently used by securities analysts, investors and other interested parties in the evaluation of companies in our industry. We also believe that Adjusted Net Income available to common stockholders, Adjusted Earnings per Shares, EBITDA and Adjusted EBITDA are useful in evaluating our ability to service additional debt and make capital expenditures. In addition, we believe that Adjusted Net Income available to common stockholders, Adjusted Earnings per Shares, EBITDA and Adjusted EBITDA are useful in evaluating our operating performance and liquidity position compared to that of other companies in our industry because the calculation of Adjusted Net Income available to common stockholders, Adjusted Earnings per Shares, EBITDA and Adjusted EBITDA generally eliminates the effects of financings, income taxes and the accounting effects of capital expenditures and acquisitions, items which may vary for different companies for reasons unrelated to overall operating performance and liquidity. In evaluating Adjusted Net Income available to common stockholders, Adjusted Earnings per Shares, EBITDA and Adjusted EBITDA, you should be aware that in the future we may incur expenses that are the same as or similar to some of the adjustments in this presentation. Our presentation of Adjusted Net Income available to common stockholders, Adjusted Earnings per Shares, EBITDA and Adjusted EBITDA should not be construed as an inference that our future results will be unaffected by unusual or non-recurring items.

(1) Items to consider for comparability include gains and charges. Gains positively impacting Net Income available to common stockholders are reflected as deductions to Adjusted Net Income available to common stockholders. Charges negatively impacting Net Income available to common stockholders are reflected as increases to Adjusted Net Income available to common stockholders.
