**Costamare Inc. Announces Completion of Financing for Three Newbuild Containership Vessels and the Acquisition of Three Secondhand Vessels**

**ATHENS, GREECE - January 24, 2011** – Costamare Inc. (the “Company”) (NYSE: CMRE), one of the world’s leading owners and providers of containerships for charter, announced today that it has finalized the financing arrangements for the three newbuilding contracts which were identified in its initial public offering (“IPO”) prospectus in November 2010. The containerships, each with a capacity of about 9,000 TEU, will be constructed by Shanghai Jiangnan Changxing Heavy Industry Co., Ltd. for a contract price of \$95,080,000 per vessel and are scheduled to be delivered between November 2013 and January 2014.

The Company has entered into time charter agreements with MSC for the employment of each vessel immediately upon delivery, for duration of ten years at a daily charter rate of \$43,000.

The Company also announced the following acquisitions:

- (a) The purchase of a 2,020 TEU vessel, built in 1991, which was acquired for a price of \$7,500,000. The vessel was delivered on January 7, 2011 and after its scheduled dry-docking is expected to be available to commence service in February 2011.
- (b) The purchase of a 1,162 TEU vessel, built in 1995, which was acquired for a price of \$8,300,000. The vessel is expected to be delivered by the end of January 2011.
- (c) The purchase of a 1,504 TEU vessel, built in 1996, which was acquired for a price of \$9,500,000. The vessel is expected to be delivered before the end of March 2011.

All three second hand vessels have been acquired with own funds.

**Management Commentary**

Konstantinos Konstantakopoulos, Chairman and Chief Executive Officer of the Company said: “We are pleased to announce the conclusion of the financing arrangements for the three new building contracts with the participation of some of the most respected Chinese and European financial institutions. These vessels are expected to contribute approximately \$460 million of contracted revenues”.

“At the same time we are expanding our fleet with acquisitions of second hand assets, which, based on the vessels’ technical specifications and our operational track record, we expect to charter at rates comparable to those offered for younger tonnage. Over the last four months we have acquired a total of 10 vessels, with a total TEU capacity in excess of 45,000 TEUs. Our balance sheet, together with cash flow from operations and access to undrawn credit lines and bank debt, will allow us to grow significantly on a prudent basis”.
